

## Unify OpenStage Key Module 15 lava L30250-F600-C181

---

The **OpenStage Key Module 15** is a key module attached to the side of the phone that provides an additional 18 additional freely programmable keys (Paper labels) with LEDs; function, speed dial or line keys. Like keys on the phone, these keys can be programmed and used according to your needs.

You can only attach one OpenStage Key Module 15 to your OpenStage 15 / 40.
